*When Men and Women  
Start to Look Up and Talk Up*

## **Business Will Buck Up!**

**S**TATISTICIANS have proved beyond the shadow of a doubt that much of the present but happily fast disappearing business depression is caused by FEAR on the part of the buying public. And by fear is meant fear of loss of employment, fear that merchandise bought now will be lower in price a month hence, fear that the family bankroll, if not augmented constantly, will not be strong enough to withstand a long siege of unemployment.

Appeals are going broadcast to BUY NOW. To buy now the necessities that must be purchased later. In order that the present workers may be kept in harness—in order that an increase in business may provide work for those not at present engaged.

Don't hold back for tomorrow. Remember there are others dependent upon your purchasing. Sacrifice no necessity lest you lose more than you gain by killing business—the bird that lays the golden egg.
